Subject: North and East Cities Regional Mucipial Jail EIS

Hi,

I am a resident living near the proposed "Seattle North" site on 1600 Armory Way. I am against this site because it is too close to residents living on 14th (where I live), and some of the other sites are further from resident homes. I am a single woman and I would feel unsafe with a jail so close to my condo.

Thanks for your consideration,

Sydney Maupin

Subject: Site Proposal- Shoreline location 2545 NE 200th St
Attachments: 122108-2545 NE 200th St.jpg

Dear Ms. Diane Sugimura,

I am writing in regard to the potential site in Shoreline at 2545 NE 200th St, for North and East Cities Regional Municipal Jail EIS.

I am an owner and resident of 25th Place Condominiums across from the softball field of the Shoreline location, and I hope you take into consideration removing the location from the potential site list.

This is a peaceful neighborhood filled with young families. There is a church right across from this proposed site, various apartment and condo complexes with lots of families that have young children.

Many people use the softball field including the local high school, a group of hobbyists that play cricket enjoy the tennis courts, and many people who play tennis recreationally also use the tennis courts. I have seen mothers with baby joggers, people who drive to this location to run/exercise around the track. Lots of dogs get great exercise with their owners because the grassy hill/area is nicely fenced off for running and playing- dogs and kids alike.

I know that I am biased, but there is an elementary school less than half a mile away. We are a small community in the Ballinger area, but we're full of young families, and we hope you will respect our wishes to remove this location from your proposed list.

It is going to be very detrimental to the growing tweens/teens that reside in this community (we already have some ongoing issues with graffiti, vandalism in the area), bringing a jail would definitely exacerbate negative activity for that age group in the community.

If anything, it would be a better idea to turn this facility into an after school activity center for the Shoreline school districts, or a non-profit activity center, something that benefits the community and

the growing youth.

Please keep the jail out of our neighborhood. The families here don't need it, and the site proposed that is next to the existing jail sounds like a much better choice. Please don't bring this here to Shoreline.

I have attached this photo taken from the balcony of the 25th place condos around 6pm.

Yesterday in the snow- we had the entire neighborhood out on the hill of this site, sledding, and enjoying the winter season.

Today, there are still kids out on this hill.

Thank you for your time and consideration.

Best Regards,

Annie Han Mullally

Subject: Public Comment on Jail site review

This process needs to include a NEPA review. SEPA and EIS does not take into account the socio-economic impacts of the development.

The expansion of the Seattle site seems at first glance to be the most cost effective option. I understand you have to look at all options.

The Shoreline property would better serve the community as a mixed use development with retail and housing. This would increase the tax base for the City and provide revenue to the Shoreline School District when sold or leased.

Subject: 5 Cities agreement.

Regarding the agreement between the 5 cities: "The agreement is only about the process for the joint Environmental Impact Statement (EIS) that will evaluate the impacts of potential sites among the five cities."

1. Please tell us in which "city "you find Kingsgate.

2. Please tell us how this " evaluation" by the 5 cities will fairly evaluate the impact on an area that is well outside the legal and moral jurisdiction of any city named

3. Please tell us how this "process" has been fair to Kingsgate when the proponent and the evaluating authority/agency are one in the same, with understandable self interest issues as a driver.

4. Clearly it is in the interests of the elected officials of the 5 Cities to site the jail in another preferably distant community for which they have no responsibility.

It is to the illumination of monumental cynicism to see the "cities" nominate a small community with no elected officials in which to dump their collective problems. Please

tell us how this "process" claims validity in its evaluation of the unincorporated community of Kingsgate.

Respectfully, Katherine McLean
