Neighborhood: N/A

To place this facility in a residential neighborhood would be extremely unwise both for the financial well being and the safety of the residents in the area.

City: Lake Forest Park

Neighborhood: N/A

We believe the choice of the Aldercrest Annex for a 640 bed regional misdemeanor jail facility is not a good choice. It is across the street from a school, a park, 2 playing fields. We do not wish to see a jail site at this location.

Name: Nancy Moreyra

City: Shoreline

Neighborhood: N/A

Regarding the Aldercrest Annex as a possible site for a 640-bed municipal jail NO WAY! A 640-bed jail is a very significant facility pulling people from all over the county! This WILL affect our neighborhood. On behalf of my children growing up and playing in this neighborhood, again I say NO WAY!

Name: Normando Brenis Lint

Neighborhood: N/A

I believe it is absurd to build a regional jail in this neighborhood where we have small children (two elementary schools) I am apposed to such a thing

Name: Stewart Kershaw

City: Shoreline

Neighborhood: N/A

Dear Sirs,

Given the amount of available and empty space in the state of Washington, I am astonished and also extremely disappointed in your collective intelligence that you should even be considering a regional jail within a heavily populated suburb of Seattle such as Shoreline.

Personally, I bought my house and home within a quarter mile of the Aldercrest Annex because of the attractiveness of the neighborhood and the relative safety of living here. Yet you appear to be proposing a plan which could substantially alter the quality of where we live - can we expect therefore (if this plan is adopted) that our Property Taxes will be substantially reduced in consequence? Probably not, which then leads to the question as to why your collective intelligence lends itself to only considering penal issues within our community other than the inherent safety and personal confidence for the many thousands of families and children who already live here.

Please, stop wasting everyone's time by calling for neighborhood meetings, but rather get on with the task of finding a new jail site that is acceptable to the majority of the population, and one which doesn't insult your intelligence as well as ours.
