I'm not very comfortable about having a jail so close to where I stay.

Name: Hui Han

City: Unincorporated King County

Seattle Neighborhood: N/A

Hi, I and my family strongly oppose the jail site in unincorporated king county (near Totem Lake at 13225 N.E. 26th Place)!!! A jail site shouldn't be so close to residential area. Safety to surrounding residents is the most important factor to consider when deciding the jail site. Both Albert Einstein elementary school and Redmond high school are just about 3 mile away from this proposed jail site. It is certainly NOT safe to children and family living nearby! When you consider the inmate transportation costs between courts and jail, could you please kindly consider the much greater devaluation on nearby property value??!!! The proposed jail site in unincorporated King County is simply too close for our comfort. We oppose it.

I oppose plans to build the jail in this location. It is too close to residential communities with young families. It just doesn't make sense. Knowing that this is coming, who is going to want to buy the planned homes that are going up by builders, only to see their property values badly impacted and their security potentially threatened? Your tax base is going to shrink and the neighboring areas will lose potential residents to other communities. It's a horrible idea!
