We implore you to withdraw the Shoreline site from further consideration. The NEC's second factor for guiding site identification should be revised from "Adjacent uses, with a PREFERENCE for commercial/light industrial" to "Adjacent uses, MUST BE commercial/light industrial, NOT RESIDENTIAL" then proceed to withdraw the Shoreline site from further consideration. It doesn't take a rocket scientist to know that a jail DOES NOT BELONG in a residential neighborhood where it will be detrimental to people's sense of safety, the neighborhood character, homeowner's property values, and environmentally sensitive areas.
